FERTILITY CLINIC

part of HCA Healthcare UK

WELCOME

At Lister Fertility Clinic, we run a dedicated egg donation programme that is one of the longest running and most successful in the UK.

As such, we are aware of the emotional strain that infertility places on most couples and in particular the issues that surround egg donation. The dedicated egg donation team, whose key members have worked in the Lister Fertility Clinic for many years, allow us to provide the continuity of care, friendly but professional environment and support that we feel is essential to your experience. We have also launched two new international partnerships to provide frozen donor eggs to our patients.

Whether you are in a heterosexual, same sex relationship or single, we are here to help, with our team of counsellors providing continuous support before, during and after your treatment.

CONTENTS

- 4 Recipient Cycle using Lister Egg Sharing Donor
- 5 Recipient Cycle using Lister Egg Bank Donor
- 6 Recipient Cycle using Known Donor
- 7 Recipient Cycle using Embryo Donor
- 8 Recipient Cycle using Altrui-recruited Donor
- 9 Recipient Cycle using Grace-recruited Donor
- 10 Recipient Cycle using Apricity Donor Pathway (Fresh Transfer)
- 11 Recipient Cycle using Apricity Donor Pathway (Embryo Freeze and Frozen Transfer)
- 12 Recipient Cycle using self-recruited Intersono Ukraine Donor

RECIPIENT CYCLE USING LISTER EGG SHARING DONOR

Embryo freezing including 1st year storage (if applicable)	£940

KEY FOR EGG DONATION PRICES

a)

Recipient female screening tests (initial)

- Virology (HIV 1&2, Hep B core antibodies, Hep B surface antigen, Hep C antibodies)
- Thyroid profile
- Full blood count
- CMV IgG and IgM
- Blood pressure
- Chlamydia
- Rubella IgG

b)

Recipient male screening tests (initial)

- Virology (HIV 1&2, Hep B core antibodies, Hep B surface antigen, Hep C antibodies)

c)

- OD cycle medication for recipient types of medication: Synarel nasal spray, Suprecur nasal spray, Suprecur injections, Progynova, Cyclogest, Vagifem, Estraderm Patches, Aspirin, Viagra, Prontogest

d)

Donor initial screening (6 month valid)

- HIV 1 & 2, Hepatitis B Surface antigen, Hepatitis B Core antibody and Hepatitis C antibody
- VDRL (syphilis)
- HTLV I & II
- CMV IgG & IgM
- Chlamydia
- Gonorrhoea
- Full blood count

• Thyroid profile

- Blood group
- Cystic fibrosis (CF)
- Chromosome study
- Haemoglobinopathy
- Rectal swab
- Tay-Sachs disease - if Jewish
- Cervical smear
- Trypanosoma cruzi (American trypanosomiasis)
- Malaria
- Zika

e)

Donor pre-treatment screening

- HIV 1 and 2, Hepatitis B and Hepatitis C (NAT-PCR)
- HIV 1 & 2, Hepatitis B surface antigen, Hepatitis B core antibody and Hepatitis C antibody
- VDRL (syphilis)
- HTLV I & II
- CMV IgG & IgM
- Chlamydia
- Gonorrhoea

f)

Cyprus donor screening / counselling

- HIV 1 & 2, Hepatitis B surface antigen, Hepatitis B core antibody and Hepatitis C antibody
- VDRL (syphilis)
- HTLV I & II
- CMV IgG & IgM
- Chlamydia
- Gonorrhoea
- Full blood count
- Blood group
- Cystic fibrosis
- Chromosome study

- Haemoglobinopathy
- Tay-Sachs disease - if Jewish
- Cervical smear
- Trypanosoma cruzi (American trypanosomiasis)
- Malaria
- STDX (HIV 1 and 2, Hepatitis B and Hepatitis C (NAT-PCR))
- HIV 1 & 2, Hepatitis B surface antigen, Hepatitis B core antibody and Hepatitis C antibody
- VDRL (syphilis)
- HTLV I & II
- Chlamydia
- Gonorrhoea

g)

Ukraine Donor Screening / Counselling

- HIV 1/2/0, T.Pallidum, Hepatitis B, Hepatitis C, Chlamydia, Gonorrhoeae, CMV IgG & IgM,
- Cystic fibrosis
- Karyotyping
- Fragile X
- SMA
- Vaginal swab
- Pap smear
- AMH
- Estradiol
- General blood count + clotting test
- Blood type and Rh-factor

**This is an example cost for what we believe the patient would pay to the Lister

*** This is what we believe would be the total cost including external fees.

Please note for recipients who choose to cancel/abandon a cycle after a donor has been prepared for egg donation, there is a £1,665 abandoned cycle fee.
